May 22, 2020

Dear Middletown Township Residents:

Staff was advised by Sunoco representatives of several activities or updates within the Township:

1. Mobilization and preparation work at HDD631 (Gun Club segment) continue into next week with drilling/construction to commence soon.
2. The Valley Road stormwater retention basin was completed, and the contractors have demobilized from the site.
3. Maintenance work in the Darlington Open Space was completed; crews will start demobilizing over the next two weeks.
4. Commissioning segments of the 16" Mariner East 2 line is scheduled for next week:
  - a. May 26<sup>th</sup>: site work and mobilization at the Glenwood Valve Station.
  - b. May 27<sup>th</sup>: filling the line.
  - c. May 28<sup>th</sup>: complete line fill; mobile flare stack onsite, for needed. If flaring is necessary, it will occur only during daytime hours.

Work will be completed by Sunoco pipeline crews and not a third-party contractor. Small mobilization of personnel might be observed at the valve station, and no major equipment will be required to complete this task or create a disruption during work hours.

Township staff will update its website with confirmed information at [middletowndelcopa.gov/sunoco](http://middletowndelcopa.gov/sunoco).

Sincerely,

Andrew S. Haines  
Township Manager
