Dear Property Owner,

Sunoco Pipeline L.P., a wholly owned subsidiary of Energy Transfer, ("Sunoco"), operates and maintains the above high-pressure pipeline that may traverse your property. As such, this letter is serving to provide you advance notice that Sunoco will be conducting a "Close Interval Survey" on the pipeline as part of its routine maintenance program. The purpose of the survey is to gather data on the current levels of cathodic protection (corrosion prevention controls) which are needed to protect the pipeline.

The survey will consist of personnel walking along the pipeline with handheld probes and backpack equipment gathering cathodic protection readings. There will be no excavations associated with the survey and therefore no property damage is expected. Corrpro will be Sunoco's contractor for the survey, and you may see their vehicles along the pipeline right-of-way.

The survey is scheduled to on or about October 11th, 2023; however, due to the length of the pipeline and the uncertainty of weather conditions, we are unable to provide the exact date of the survey to be performed across your property. It would be appreciated if you would pass on this information regarding the Close Interval Survey to any tenant so they are aware of Sunoco plans. Sunoco appreciates your cooperation while our crews are in your area.

Thank you in advance for your cooperation and patience as we perform this necessary survey. In the interim, should you have any questions, please do not hesitate to call me at 610-670-3290 or email me at susan.erickson@energytransfer.com.

Best Regards,

Sue Erickson

Sr. Right-of-Way Representative
