RE: Sunoco Pipeline Repair and Maintenance Project New Darlington Road

Sunoco Pipeline L.P. (SPLP) has received state and local permits to address erosion on a section of its existing 8 -inch pipeline from Beckersville to Twin Oaks Pipeline.

Sunoco is preparing to begin a repair and protection maintenance project of an existing segment of 8-inch NGL pipeline that is exposed near the bottom of an unnamed tributary to Chester Creek, crossing New Darlington Road, approximately 1,800 feet north of the intersection of Darlington Road. The project is scheduled to begin on Wednesday, April 7th and last approximately six weeks (pending weather). During the six weeks, the work will take place Wednesday through Saturday, 9am-3pm. The project will require a lane closure; Township is requiring Sunoco to adhere to PennDot lane closure guidance and have signage at appropriate locations and traffic flaggers at the location of the project.

Sincerely,

John McMullan
Township Manager
